15. Subject.-Clause xv of the Schedule.

Grant-in-aid to the Chikballapur Municipal Council for the water supply project of the town.

OPINION OF THE COUNCIL.

The project costing about Rs.83,545, for the supply of pumped water to Chikballapur may be approved and detailed plans and estimates called for.

The cost will be met partly by a contribution of Rs.30,000 by the municipality of Chikballapur and partly by a special grant by Government of Rs.54,000.

The work may be started in 1917-18, Rs.10,000 being granted towards the cost by Government out of Rs.54,000

The municipality should bear the charges of maintenance wholly.

The sanction may be subject to the conditions that the cost of the project should not exceed Rs.85,000 and contribution by Government Rs.54,000.

## Final Note by the Second Member of Council

**Subject —**

26 Grant-in-aid to the Chikballapur Municipal Council for ~~the~~ the water supply project of the town

---

The question of improving the water supply of Chikballapur is being urged before Government year after year Two alternative estimates have been prepared providing for pumping 10 and 5 gallons per head daily, and the larger project estimated to cost nearly Rs 84,000 for supply from the Gopalakrishna tank has been approved by the Municipal Council

2 The Municipal Council at first pleaded inability to finance the scheme and prayed that the Local Funds General and State Funds may each contribute a moiety of the initial cost of the project On the file coming up to me for orders, I noted on the 22nd November 1916, that the President may be referred to the recent Government Order (on the Local Self Government Scheme) and asked to submit revised proposals

3 The Municipal Council have accordingly, on reconsideration, now agreed to contribute a sum of Rs 20,000, seeking the aid of Government for meeting the balance required

4 The matter was considered in Council on the 11th June 1917 when it was resolved, among other details, to sanction a contribution not exceeding Rs 54,000 from Government and to pay out of this grant a sum of Rs 10,000 during the year 1917-18 The resolution of the Council, and the draft order based thereon, may be approved

NOTE—Contn sheet

Office of the Deputy Commissioner,
Kolar District.
Dated Kolar, the 28th February 1917.

D 1673.

Mi. 126-16-3.

From

P. F B O W R I N G, Esquire, J.P.,
Deputy Commissioner, Kolar District.

To

B. Ramaswamaiah, Esquire, B.A., B L.,
Offg. Secretary to the Government of
His Highness the Maharaja of MYSORE,
Revenue Department, B a n g a l o r e.

Sir,

With reference to your letter No 3555/Mi. 126-16-2 dated 2nd December 1916, regarding the water supply project of Chikballapur Town, I have the honor to state that agreeably to the instructions conveyed therein, the Municipal Council were requested to take necessary action and they have now resolved that they would contribute a sum of Rs. 20,000/- towards the cost of the project from their own funds, and plead their inability to raise a loan, which - apart from the difficulty of getting it, would impose on them heavy liabilities in the shape of interest and a sinking fund in addition to the large maintenance charges of a recurring character, which the scheme would entail on them. On this subject however, I would submit the following facts for the kind consideration of Government.

2. The rough project now prepared by the Public Works Department is estimated to cost about Rs. 84,000/- and there is every likelihood of the estimate being exceeded owing to the conditions brought about by the war. The Municipal

quota would therefore be not less than Rs. 42,000/- excluding the charges for "Establishment and tools and plant," which are assumed to be waived in the present instance as a special case. The --- Municipal Council after paying Rs. 20,000/- as agreed to in para 1 above, will have to borrow at least Rs. 22,000/- to make up their share of the cost The interest on this sum and the annual instalments towards the repayment of the loan in 20 years will not be less than Rs. 2,000/- a year and as the maintenance charges have also to be provided for by the Municipal Council, the total extra expenditure devolving on them would not be less than Rs 6,000/ per annum

3. I enclose herein a statement showing the income and expenditure of this Municipality since the year 1897-98 and it will be seen therefrom that the Council have been obliged to spend every year almost the whole of their income to meet the normal expenditure. There has been some savings from the year 1911-12 and this was because the Council were about this time asked to set apart some funds for the water supply of the town, and this they did after starving several works of sanitation, and the closing balance has in consequence risen to nearly Rs. 30,000/-, but this state of affairs cannot continue and the question of providing the town with good drainage, which is as much of vital importance as the water supply, will have to be taken up The fact that the town is being visited with plague almost every year emphasises the urgency of the question Necessary surveys for a comprehensive drainage project are nearing completion and I will have to address Government on this subject before long

4. It will thus be seen that the raising of a loan in addition to the payment of the maintenance charges would seriously handicap the Municipal Council and embarass them to such an extent as to render the repayment of the loan extremely remote Such a course is likely to result in the neglect of their most important duties in future and I am convinced that it will be an unfortunate affair for the Municipal Council should the Government be not pleased to extend to them more than ordinary aid in a matter which will be of ever-lasting behefit to a

town,

containing a population of over 12,000/- souls.

5. By the foregoing, it is not to be inferred that I absolve the Municipal Council from their responsibilities in a matter like this; and I am sure that they will bear the burden to an adequate extent by maintaining the water works after completion, which costs them no small sum and for which they will be forced to raise the necessary funds by additional taxation, as already explained in para 6 of my previous letter on this subject.

6 The urgency of the question and the prohibitive cost of the undertaking render it necessary for me to make this special recommendations and I request that the Government may be pleased to accept the Council's contribution as a proof of their earnestness in the matter and extend to them the help prayed for, by ordering the immediate execution of the works by meeting the balance of the cost out of State Funds.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Kolar District.
